EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Melissa Hayworth on April 01, 2008.

IN THE CLAIMS –

Claim 9 has been **cancelled**.

Claim 7, after "R-tenatoprazole", **DELETE**, "."

Claim 7, line 4, after "R-tenatoprazole.", **INSERT** –, wherein digestive diseases are selected from gastro-oesophageal reflux disease and digestive bleeding in polymedicamented patients.--

Allowable Subject Matter

Claims 1-7, 10-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The rejection under 35 U.S.C. 102(b) over Bergstrand et al., US 5,753,265 and Matsuishi et al., US 4,808,596 are withdrawn due to applicant's argument in paper dated on 02/21/2008. Applicants argue that the non-linear profile of the (+) enantiomer and the racemate result in unpredictability and reduction in safety in dosing in all patients since there is no proportionality between the increase in

dose and increase in plasma concentrations. In contrast, the (-) enantiomer exhibits a linear profile providing predictability in dosing in all patients and increased safety since there is proportionality between the increase in dose and increase in plasma concentrations. Also unexpectedly, the pharmacokinetics of (+) enantiomer are not linear in either subject without a genetic deficiency of the CYP 2C19 pathway ("normal subject") or in subject with a genetic deficiency of CYP 2C19 pathway ("poor metabolizers"). The metabolic by-products of the (+) enantiomer exhibit an inhibitory effect on the metabolism of the (+) enantiomer. Possible safety concerns arise from the poor predictability in dosing in all patients, the increased half life and exposure in patients, and the increased potential for drug interactions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Niloofar Rahmani whose telephone number is 571-272-4329. The examiner can normally be reached on Monday through Friday from 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet Andres, can be reached on 571-272-0867. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
